

## Sabbath Day Cookies

Print out the Sabbath Day Cookie Sheet and the Cookies on cardstock paper. Cut them out and laminate. Apply Velcro to each of the Sabbath Day Activity Circles and on the back of each cookie so a cookie can attach to each activity circle. When you get together with your children, have a child remove one cookie at a time and go over the activity together. When you finish going over the cookie sheet, come up with some ideas you can do as a family together on the Sabbath Day. The ideas can be from the activity or new ones you come up with.
